

District of Columbia's Home and Community-Based Services Promoting Interoperability Program <u>TRACK THREE 3 ATTESTATION CHECKLIST</u>

All provider organizations that participate in the Home and Community-Based Services (HCBS) Promoting Interoperability (PI) Program are required to submit supporting documentation to validate attested milestones. All supporting documentation used during the attestation must be retained for at **least six years**. Supporting documentation is to be submitted via <u>DC's State Level Registry</u> (https://dcslr.thinkhts.com/).

Track 3 is appropriate for HCBS provider organizations that would like to optimize their existing (certified or non-certified) EHR or case management system. Track 3 organizations will receive technical assistance to purchase potential gap tools or other direct integration tools to ultimately enable a secure connection to the DC HIE.
